

	QUALITY POLICY	5.2. PDC
--	-----------------------	-----------------

Afinitica Technologies, S.L. is a chemical technology Company devoted to design, development, production monitoring, commercialisation and distribution of advanced instant adhesives. Thanks to its deep knowledge on the techniques of synthesis, formulation and processing of cyanoacrylates, the Company is able to offer innovative products that satisfy the requests, needs and expectations of our customers, so that they can reach a competitive edge and increase their added value.

Afinitica Technologies, S.L., represented by its General Manager, as responsible for the efficiency of its Quality Management System, sets, implements, pushes and is committed to:

- Integrating into the organisation's strategy a Quality Management System focussed on processes which, by means of planned reviews, promotes continuous improvement.
- The Quality System implemented will be in strict compliance with the European Standard EN ISO 9001.
- Complying with the legal, regulatory and other such requirements that apply to the Company's activity
- Assuring the necessary human, material and financial resources through strategic planning.
- Involving all employees actively, communicating the importance of an effective Quality Management and providing a training programme in order to support their managing abilities and participation
- Getting suppliers committed to Quality Management to achieve a common goal.
- Establishing communication channels inside the organisation as well as to the relevant interested parties in order to enhance participation.
- Afinitica Technologies, S.L. management adopts and implements the Commitment to Good Environmental Practices, based on the following principles:
 - Optimisation of energy resources.
 - Minimisation of production waste and emissions.

In order to ensure that this Quality Policy and Commitment to Good Environmental Practice is communicated, understood, implemented and kept up to date by all levels of the organisation, it will be open to all personnel, co-workers, customers and other relevant interested parties.
